

Key Benefits :

Business-Class Fiber Internet Solutions

- Exceptional value at a fraction of the cost of T1 or other dedicated services
- Reliable and predictable fiber performance offering Internet services up to 10Gbps
- Guaranteed upload and download speeds, great for applications such as Voice Over Internet Protocol (VoIP) and video streaming.
- Connect all your remote offices with our Metro-Ethernet product via Fiber or Wireless

Service and Support

- Guaranteed, professional installation
- Priority business support, available 24/7
- Onsite support, as needed

Network Security

- Full end-to-end network security base on Juniper and Cisco products

VoIP and Video Security

- Support of VoIP (Voice Over Internet Protocol) phone service
- Security surveillance solutions for business. Trust the company that designed and installed the State Street security camera network.
- 2009 Award from the Madison Police Department and City Information Technology group for our video surveillance services.

Increase Productivity - Lower Your Costs

METRO-FIBER INTERNET SOLUTION

To succeed in today's business environment, you need to effectively leverage technology that increases your productivity and efficiency and helps you connect to your customers, vendors, and employees. Mad City Broadband's Metro-Fiber solution can help you achieve these goals with high-quality symmetrical business class Internet and Data network services with speeds up to 10Gbps.

SIMPLIFIED - RELIABLE - SCALABLE

Mad City Broadband Metro-Fiber is a scalable solution - that can grow as your business needs growth. In fact, we can increase your service level in increments as low as 2Mbps.

Mad City Broadband's business Internet and Data services are not constrained by legacy Telco solutions such as SONET, T1 or DS3 style of delivery methods. Pure Ethernet-based technology allows our product to offer a completely redundant, simplified, optimal solution.

Our product is deployed from a fiber ring topology with diverse paths for the fiber. We can also offer Border Gateway Protocol (BGP) routing support for businesses that connect with more than one ISP.

Mad City Broadband has worked with businesses like yours to help them connect—and grow. Our business product offers a premium suite of features and services designed to grow with your successful business. Our business customers can count on dedicated, quality customer support.

STABILITY AND EXPERTISE

Mad City Broadband is a Xicom Wireless company, a truly global wireless company with tremendous financial backing. With both domestic and international wireless broadband networks, Xicom Wireless is able to bring the applications of the future to your business today; this provides the level of certainty a business owner needs in these economic times to make a long-term decision.

WHAT OUR CUSTOMERS SAY

" With Mad City Broadband we have found that we have highly reliable fast service 24/7 and could not be happier." - MicroBlade

"MCB's prices are a fraction of what our previous Telco charges were, they deliver very good bandwidth and it's more reliable as well." Planet Madison
